| 6 | \$4,386.90 |

Commodity Charge: The Commodity Charge is \$4.11 per thousand gallons used.

All customers not located within the Village boundaries will be charged at rates equal to two times those paid by customers within the boundaries.

For clarification purposes, Commodity means the amount of water used per customer. Readiness is the “ready to serve” charge billed quarterly based on the meter size that services your property. Readiness means the water system can provide water at any moment. It is in place of the system capacity on standby for emergency purposes and operational flexibility.

These charges also include debt payments on common infrastructure (lift stations, main lines, water towers, and transmission) needed to accommodate existing sewage needs and water delivery to homes. This charge applies even if the customer has no water usage during the billing period.
